Karen Laven ponders over the situation.

Gary Prish addresses the student body at the first pep rally.

We want FOOD!

And we all know it's better
 Yesterday has past
 now let's all start the living
 for the one that's going to last
 Yes, we all know it's better
 yesterday has past
 now let's all start the living
 for the one that's going to last

ALMA MATER

To love our Alma Mater,
To honor and we pray,
For those who choose to enter
You guide and lead the way.

Beneath your flying banner
Together we will strive
To hold high standards always
And keep our hopes alive.

So proudly you stand Brearley,
Hold high in our esteem
You're here for those who need you
To help us build our dreams.

Though years will pass us quickly
Still in our hearts we'll hold
True spirit never falling
For Navy Blue and Gold.

Everybody say Lasagna??

Debbie Onda moans "Can't a person take a drink around here?"

Don't you feel a change coming
from another side of time,
breaking down the walls of silence
lifting shadows from your mind

Placing back the missing mirrors
that before you couldn't find

'We can't all fit at once'

Filling mysteries of emptiness
that yesterday left behind

'Look into my eyes' said the spider (Wayne K. George) to the fly

Gary H. Gray reflects on his future

Pete Wachter and Bill Urban — Friends Forever

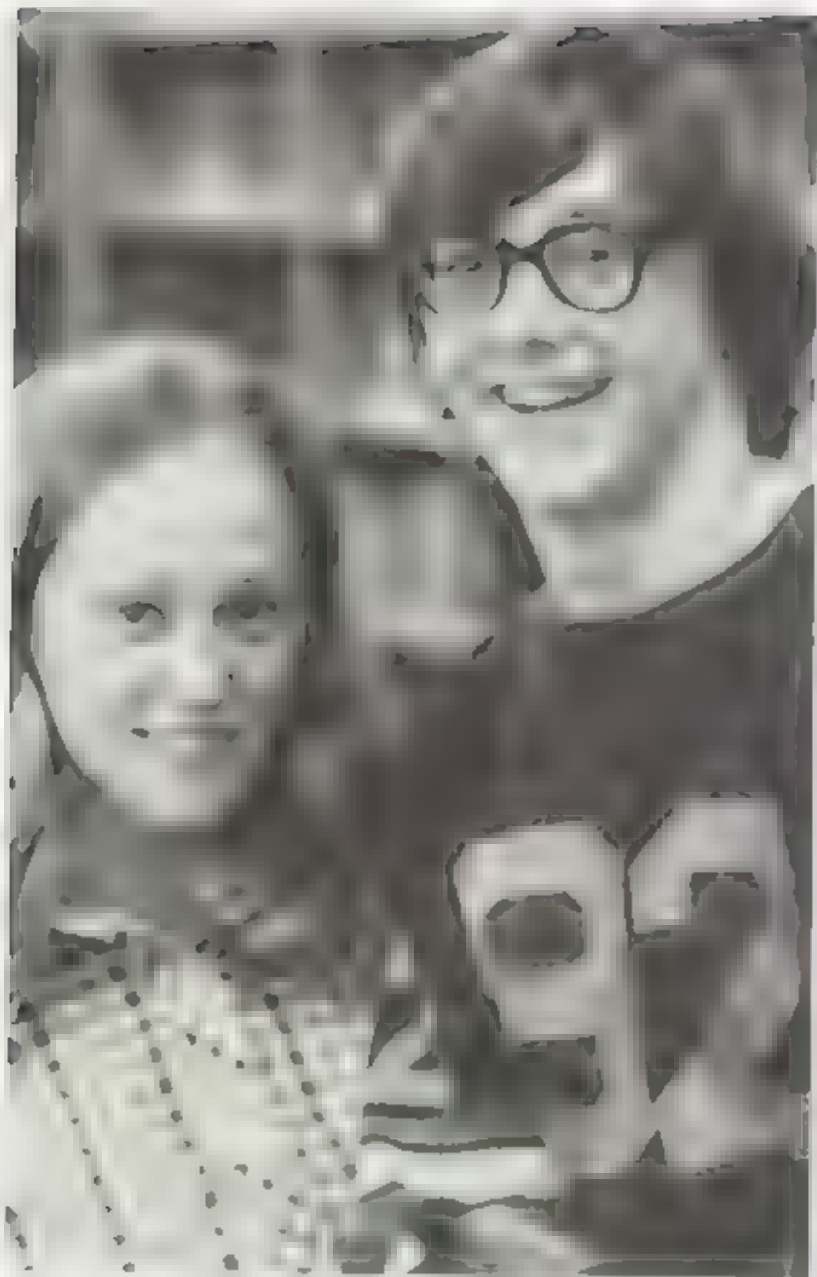

A warm smile from Mary Krating — one of the Bearley rah-rahs

And then he said . . ." explains Charlene Melchior

Don't you feel the day is coming
that will stay and remain
when your children see the answers
that you saw the same
when the clouds have all gone
there will be no more rain
and the beauty of all things
is uncovered again

Julie St. Louis, Bill Buntle, and another student.

Don't you feel the day is
coming,
and it won't be too soon
when the people of the world
can all live in one room
when we shake off the ancient
shake off the ancient chains
of our tomb
we will all be born again
of the eternal womb

Larry Buntele shows what happens when you come late to class

Mr. Wooten now knows where Cindy Maling gets her papers from

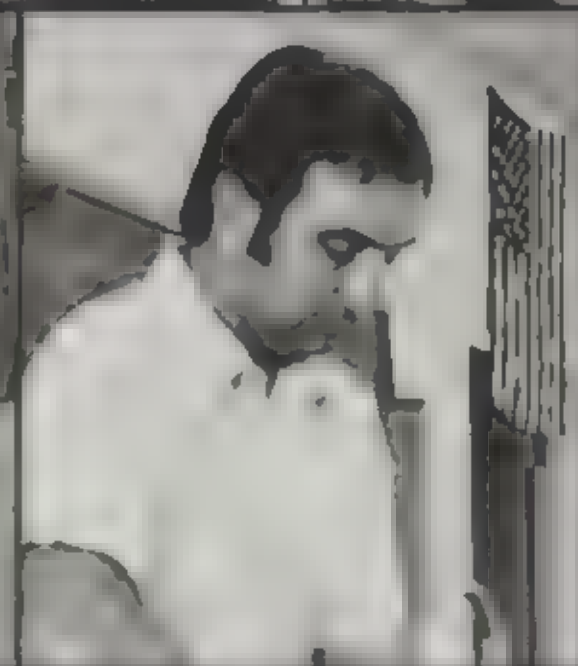

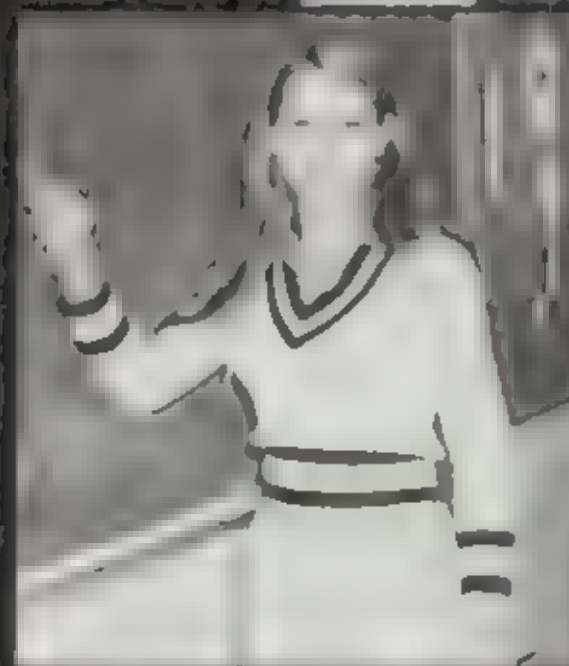

Jimmy Zender works hard on his English report

WHAT IS MONSANTO?

In case you were wondering . . . Monsanto is much more than a chemical company, it is also a plastics company, a fibers company, an agricultural company, an electronics company . . . In short, an international science company . . . A one-stop service company for industries everywhere . . . A supplier of technological benefits found in thousands of consumer products worldwide.
